

Lunar Antipodes

A Tale of Balance, Opposites, and the Eternal Dance of Spheres

Yin and yang collide in **Lunar Antipodes**, a cocktail collection inspired by the duality of chinese astrology, where each zodiac sign finds its opposite, creating harmony through contrast.

Unifying each pair with a base spirit, the drinks diverge in style, expressing both boldness and subtlety, instinct and strategy, structure and fluidity.

Key to the concept is the sacred geometry of circles and orbits—visual and sensory cues that echo wholeness through floating flavor spheres, foamy halos, and cyclical transformations.

Hidden within each sip lies a dance of contrast and union, guiding guests through a cosmic experience of perfect equilibrium.

Not merely drinks, but expressions of balance, the cocktails whisper their philosophy through taste and texture.

Opposition, after all, is the ingredient that completes the circle.

Each pair in the **Lunar Antipodes** collection reflects the balance of the cosmos: fire and water, structure and fluidity, strategy and spontaneity. A journey through this menu is a journey through the dance of opposites—a celestial loop with no beginning, no end, only transformation.
