

THE ALCHEMY

At the heart of Chinese philosophy lies the power of transformation. Inspired by the five elements of the zodiac - **Wood, Fire, Earth, Metal, and Water** - The Alchemy explores how energy shifts, evolves, and comes to life in the glass.

Each cocktail is an expression of its element. From the quiet growth of Wood to the intensity of Fire, the grounding force of Earth, the precision of Metal, and the fluid depth of Water.

This is a journey through balance, contrast, and transformation. A place where elements meet, flavours evolve, and every sip reveals something new.

FIRE

木

WOOD

土

EARTH

金

METAL

The Chinese zodiac unfolds through a circle of twelve animals, each guiding a year with its own character and spirit. Find your sign within the cycle and discover the creature that shapes your place in the cosmic story behind the menu.

Alongside the zodiac flows the rhythm of the five elements - Wood, Fire, Earth, Metal, and Water - each influencing two years before the energy shifts again. As this ten-year elemental rhythm moves through the twelve animals, it forms a greater sixty-year cycle, making the pairing of your birth animal and element a rare alignment that appears only once in six decades.

Strategist

Tanqueray Gin, Sauvignon Blanc, Melon, Cucumber, Lemon, Coconut

75

The Strategist channels the fluid intelligence of Water, moving with precision, wit, and quiet complexity.

水
